The project was presented to Mr Perumal at the start of the meeting. The presentation included showing and describing the process of signing-up and signing-in to the application as well as showing an example of what a user's chat list may look like.

Feedback:
Mr Perumal suggested that a list of all previous messages exchanged be present above the typing section found on the chat tab and also reiterated that a user should only be able to see their messages – not messages belonging to other users and their contacts.

Adjournment:
With there being no further questions, the meeting was adjourned at 10:16 a.m.
